The Calprit, Instead of Being Promptty Dismissed, Was Permitted to Resign With Thirty Days' Leave of Absence, WARRINGTON, May 16 .- The action of Assistat Secretary Bussey of the Interior Departat in allowing Green B. Raum, Jr., to realgn with thirty days' leave of absen e on pay, when ges found that he was gullty of the grossest bregularity in his conduct of the office of Aspoused the most indignant criticism. Gen. andalous charges that led to Mr. Faum's mirrat'en, but insted of promptly dismissing s colorit, permits him to hand in a resignaat the dictation of his father, and then sakes him a present of thirty days' pay as a ward for having been a particioan in one of most disgra-eful scandals, even though a enty one, that has ever been developed under

Administration. Mesotism in its worst form is a prominent sture of the Harrison rigime, but the Raum is the first one on record up to date where power of an executive department has in used to shield an evildoer, convicted after intrand full investigation. Gen. Raum, the missioner of Pensions, made a grave error sen he appointed his son to a clace in the basion Bureau. The young man had been in artnership with his father in the prosecution pension claims, and after both members of firm went into the department the pension daim agency was continued with another sen beharge, and the family name was used exmaively for advertising purposes.

But Gen. Raum was not the first member of De Harris an Administration to appoint members of his family to office, nor was he the last, Pro-ident Harrison himself set the example ring the first few months of his reign. Sembers of his Cabinet felt justified in follow-ing his example, and Secretaries Blaine and Roble, Attorney-General Miller, and lesser Mciais took orcasion to find places for rela-Hess. Secretary Blaine, it was generally supposed, was not inclined to practise nepotism as offensive war, and therefore the appointment of his sou to accompany Gen. Foster to Spain on a diplomatic mission was a great surprise, which was increased when it became known that the United States representatives abroad made much of the young man and preseated him to the Prince of Wales and other members of the royal family. It is quite probable that had the roung man borne any other name than that of James G. Blaine. Jr., be would not have been thus honored. When Gen. Raum appointed his con to office be probably consoled himself with the thought

that he had precedents set by men much higher in the official scale than himself. Now that the roung man has disgraced himself and his family, the Commissioner has no one but tracif to blame. The question is, will President Harrison allow Secretary Noble and Asestant Secretary Bussey to use the power of the laterior Department to shield a man whom ber do not hesitate to brand as an evildoer

the laterior Department to shield a man whom they do not hesitate to brand as an evildoor? If Green B. Raum, Jr., sold appointments and groundloss for cash, as neither Becretary Notes for Arsistant Secretary Bussay hesitate to simil; to say sothing of his action in "bornwing" \$72 of the public funds, why was he set summarily dismissed? The Becretaries asythey were "lenient because of sympathy is those upon whom the burden of his wrong-delay will fail."

But on at least one previous occasion Secretary Bussey did not exercise similar leniency, lives not many months ago that Commissioner liaum suspected that some clerk in his sites was faunishing the newspapers with the lieu regarding the soandalous conduct of certain branches of the Pension Bursau. It was because to make an example of some on and so Edward Renaud, a clerk of whom the Journal of the season of the pension Bursau. It was because to make an example of some on and so Edward Renaud, a clerk of whom the Journal of the season of the pension Bursau. It was because the season of the pension bursau in the same of the pension and set of the pension Bursau. It was because the season of the pension bursau in the season of the pension bursau in the season of the pension and the pension of the pension and the pension of the pension in the pension of the pension of the pension and the pension of the p Tasser was fired out of the Pension Office, and a tesses out seem possible that the President was sentinue to carry the burden. It looks as though Haum, Sr. must eventually follow the quample set by his son, and resign with thirty day leave on pay.

company laum. Sr. must eventually follow the example set by his son, and resign with thirty days leave on pay.

Cucao, May 18.—Gen. Green B. Banm. Commissioner of Pensiona. was in this city restarday when the news of his son's resignation was first published.

I handed the resignation to the Scerciary heiors I left Washington." said the General. I thought it was the best thing my son could do. The charge made that Green appropriated to his own use \$78 belonging to the department is unitrue. Bome time ago \$72 was sent to the office in my care, and my son opened the letter. There was no letter or anything acceptance where it was from and my son informed the law elerk that he would turn the money to left where it was from and my son informed the law elerk that he would turn the money over to the result of the conceines tund. That same uight he took the money to his home and the sext day deposted it in the Treasury. Bunly because he had that money with him at home sext day deposted it in the Treasury. Hensy because of this unfortunate affair about my out the Freident is at all displeased with my all all resign. We there he is displeased it passot say, for I have received no intimation that in I am a famery sorry for my son and am decay humiliated by it. But he is innocent of was done. The \$72 was satisfactorily accessible of the control o

wranging the state of the state

Sitter Home Veterans Waylaid and MEMAURER, May 16.-The murder of Aul-MUTAURER. May 16.—The murder of Authors the old soldier, whose body was found feeds night in a creek near the Soldiers' Heas has resulted in the discovery that a treem of brigandage has flourished in the Mighborhood of the grounds. All about the results and as close as the law will allow treasds and as close as the law will allow them are low dives and grougeries in which sem are low dives and groggeries in which for years the veterans have been plied with agor and then robbed. The competition grew to kisk, however, that enterprising robbers would be plan of catching the veterans on a cutalde. The grounds of the National come are heavily wooded and five miles from the cutalde. The ground beyond the city limits, in these woods small bands of highways many being composed of old soldiers who have been discharged from the home, have a practice of lying in ambush for belated the product of the city. The investigation brought about by the Auliuss murder the product of the fact that hundreds of men are the been waylaid and robbed within the last that.

RUE WID BERY RETRATED.

Plorence Knowlden Confessed to Dr. Ham

Florence Encwiden, the young English girl who died in the Harlem Hospital on Thursday under circumstances which led Deputy Coro-ner Conway to make an autopsy on Friday was buried yesterday in St. Michael's Cemetery at the expense of William Soons, her sister's husband, in whose house at 70 East 112th street

Miss Knowlden was a Landsome young Eng lish girl. 19 years old, who came to this country a year ago because ber sister was bere. She was taken violently ill early in May, and

suffered intensely. Mr. Soons says be tried to gala her confidence shortly before she was aken to the hospital, but did not succeed. At the hospital the girl said she had taken pennyroyal pills, given to her by a young man.

Deputy Coroner Conway decided that the autopay revealed no traces of criminality nor any indication that her condition or death was due to medicines which she might have taken Dr. Rammond, house surgeon of the Harlem Hospital, says, on the other hand, that if Dr. Conway had known the girl's story he would have decided differently.

Dr. Hammond says that he himself was her

only confident, and Dr. Hammond was out of the city all day Friday. Dr. Hammond dethe city all day Friday. Dr. Hammond describes Miss Knowlden as a particularly innocent girl. It was only when he told her that he knew she was conesaling something from him, and that the only hope of saving her life was a thorough knowledge of what caused her illness, that she told what she had done. Then she told her story in a way that convinced br. Hammond that she did not understand that she had done anything especially wrong.

She said a young man had betrayed her. She complained to this man that she must consult a physician for a derangement which she did not consider serious and the youth said he would get her some medicine. He gave her the pills. They had the desired effect a week or so later. Shortly thereafter she became ill and grew steadily worse until she diel. This was a trific over two works ago. Time enough had elapsed to hide the effect of drugs on some organs, while others were still affected in precisely the manner which might have been expected under the circumstances.

John Sherman Buil, who boards with Mr. Soons, was attentive to the girl during her illiness. He attended the funeral restorday, and said afferward: "I loved her as a sister, and was as attentive as I could be to her. She was very kind to me and I have every reason to be digturhed about her death."

Before her death Mr. Buil left his name and address at the hospital with the request that he be notified at once if he could in any way be of service. He works with Mr. Soons for the Edison Electric Illuminating Company, but is idle at present, because business is dull. His brother Douglass left the city some three weeks ago.

Dr. Hammond is certain that, some man is scribes Miss Knowlden as a particularly inno-

dull. His brother Douglass left the city some three weeks ago.

Dr. Hammond is certain that some man is reaponsible for the death of Miss Knowlden, but the girl never told his name, Dr. Hammond is equally convinced that John Bull knows nothing about it, and was honest in his easeem for the girl.

Mr. Boons says Miss Knowlden had no male visitors. Nor did she go out to work, so as to be likely to form acquaintances unknown to them. He is confident of her entire innocence, but he added:

"If I thought any one had wronged her I would hunt him down if he was my own brother."

Mrs. Boons is very iil in England. She went there to be nursed by her mother.

COKE OPERATORS WINNING.

Thirty-seven Per Cent. of the Ovens Are in Biast and More Are to Follow.

SCOTTDALE, Pa., May 16.-The great coke strike is fast nearing an end. To-night the perators claim to have 5,860 ovens burning. This is 37 per cent, of the number of ovens in blast when the strike first began. At the beginning of the strike all of the ovens in this region were shut down except Rainey's, number-The production of coke in that plant equalled

192 cars per week. Since the other works have been resuming the production of the whole region has been increasing each week. mntil last week the shipments amounted to 2.144 cars.
This week's shipments are estimated at 2.500 cars. The Frick Company alone shipped 247 cars to-day. 227 of which were produced at their own works. The Frick Company expect to add another works to their running list on Monday.

plant is now said to be running with 430 men. The 620 evens are expected to be in full blast

The 690 evens are expected to be in full blast next week.

The district officers of the strikers' erganization have become alarmed at the condition of the strike, and have issued a call to the Knights of Labor, one of the affiliated branches, calling a Knights' Convention here on Tuesday, May 19. In their call they say it has been charged that the officers of the district have been conducting the strike in opposition to public opinion, and they deem it advisable to call a Convention of the Knights of Labor, so as to have an expression from the rank and file.

The Monument to Jefferson Davis, NASHVILLE, May 16 .- At a recent meeting of the Southern Press Association at Memphis a committee of three was appointed to coperate with Gen. John B. Gordon. Commander-in-Chief of the Confederate Veteran Association, in raising a fund for erecting a monu-ment to the memory of Jefferson Davis. They have, therefore, prepared an address to the people, eulogising Mr. Davis and asking that subscriptions be sent to Capt. J. L. Webber, Charleston, S. C.

Hailroad Notes.

It is said in Chicago that the Baltimore and Ohio has finally settled the question of terminals in that city and will erect a magnificent passenger station at Harrison Halsted and streets. At that point, it is said, the company has purchased nearly an entire block of land. The various plans for terminal facilities which have been mentioned in the past have been entirely changed.

The Chicago and Calumet Terminal Railroad right of way will be used as far Northwest as the junction with the Chicago Central Railroad at Blue Island. At that point the right of way of the latter is followed north to the road of the Belt line. The B. and O. continues road of the Beit line. The B. and C. continues along the west side of the Pan Handle line, crossing it at Thirty-ninth street, and coming down over a new route to the depot at Halsied and Harrison streets.

Ever since the Chicago Central Railroad was started, a Chicago newspaper says, it has been uncertain who was building it. It was supposed that the Northern Pacific was behind it, but it now seems that the Baitimore and Ohio people are the real ones interested.

Vice-President Lord of the B. and O. denied that the company had settled the Chicago terminal matter.

From talks yesterday with general passenger ovents of the trunk lines it doesn't seem likely that the Passenger Committee will accept the demands of the Canadian Pacific as a condition of its entering the Immigrant Clearing House. All the weaker lines will demand that the business which the Canadian Pacific gets out of New York be divided equally among theirunk lines.

"It is not sufficient," said a general passenger agent, "that the Canadian Pacific agrees to accept one-ninth of the passengers out of the Barge Office. The other roads will not agree that such passengers shall all go over the West Shore. A plan that may suit fir, Mc-Nichol, Mr. Lambert, and the Chairman of the committee need not be considered as adopted yet."

A despatch from St. Paul says: "The Chicago-St. Paul lines are much alarmed over the action of the Soc in making a round trip rate to New York and Boston which is less than the one way fare. They telegraphed Chairman Finley of the Western Passenuer Association for permission to meet the cut. The Sociaded fuel to the flame by making a round trip rate of \$24.25 to Toropto, which is \$11.25 under the tourist rate sheet."

A railroad will be built from either Venadito or Jaral atations on the International and Great Northern Railroad, to Saltillo, on the Mexican National Railroad. Another line will be built from the International to Parras.

A struck jury in Newark decided yesterday that the Lehigh Valley should pay the Central Hailroad of New Jorney \$35,473 for the privilege of crossing the tracks of the Elizabeth and Newark branch of the Central at grade. In the middle of the Newark meadows. The jury will determine also what system of signals must be used at the cross.

ALTON BOYCOTT A FARCE,

THE GRAND TRUNK AND WEST SHORE ROADS OPENLY IGNORE IT.

But a Baggageman Held Back a Trunk,

Causing a Party to Miss a Steamship— There May Be Damages to Pay—A Case of Discipline for the Board of Railage. That the boycott of the Eastern sailroads against the Chicago and Alton would prove an ignominious failure has long been taken for granted, but the Board of Bulings has continued to protest that nearly all of the original sixty companies which signed the death war-rant against commissions were maintaining a solid front. THE SUN has said that several the companies, after leaving the order to their trainmen to beycott the tickets and baggage of Alton passengers, issued a second order quietly annulling the first, and directing their trainmen not to disturb such people. There is now evidence that every one of the trunk lines. except possibly the Pennsylvania and New York Central, is ignoring the ukase of the Board of Rulings. In other words, the boycott is a dead letter, but Messra. Blanchard, Goddard. Farmer, and Donald will probably not declare it off until cold weather comes.

The example that follows looks as if a bad two of the companies are liable for damages. Mr. Louis Seckel, the general agent of the Equitable Life Assurance Society at Denver, and his daughter left that city on May 7 for New York on the Union Pacific. They had secured staterooms on the steamship Columbia last Thursday for Berlin, Mr. Seckel was Pacific agent at Denver gave them coupor

Pacific agent at Denver gave them coupon tickets reading over the Chicago and Alton to Chicago, and thence over the Grand Trunk and West Shore roads to New York.

The Grand Trunk and West Shore roads publicly claim to be boycotting the Alton by or er of the Board of Rulings. They were also ordered to boycot the Union Pacific and any other company that continued to deal with the Alton. The coupon ticket issued by the Union Pacific bore on the stub part of it the phrase "on account of the Chicago and Alton, Chicago and Grand Trunk, Grand Trunk and West Shore Railroads," and even after the Union Pacific and Chicago and Alpon coupons had been torn off it was as much an Alton itsets as ever, If the boycott had been in force the first Grand Trunk conductor out of Chicago should have refused to ascept the tickets. The several Grand Trunk conductors to Chicago abould have refused to ascept the tickets. The several Grand Trunk conductors out of Chicago abould have refused to ascept the tickets. The several Grand Trunk conductors and Buffalo.

At lighthe their sleeper was attached to a At lighthe their sleeper was attached to a At lighthe their sleeper was attached to a

punched and repunched the tickets and made no complaint as Mr. Seckel rode on toward Buffalo.

At liuffalo their sleeper was attached to west Shore train. None of the conductors on this road objected to the tickets, but they treated them like any other tickets. Mr. Seckel and his daughter reached New York on Bunday last, without a suspicion that there was boycot in force, and that they had had a mighty narrow escape from being thrown off the train. As a matter of fact, the big force of detectives employed by the Alton road hasn't succeeded yet in finding a single case where one of its tickets has been refused.

Mr. Seckel called at the baggage office at the foot of Forty-second street for his baggage as soon as he arrived, but it had not come on that train. He called the next day, and the West Shore officials still knew nothing about it. Then he went to the local office of the Union Pacific, and the general Eastern agent telegraphed for information to all the junction points along the line between Denver and Wechawken. Finally, he suspected that the boycott had gone off at half cock, and that some baggage master had forgotten the substidiary order not to boycott any one. Such was the case. The Grand Trunk baggageman at Buffalo did. When he came across the brass check with the initials C and A on it be nailed it on the spot. The Grand Trunk had to take the trunk baok, and it stood in the storage room at Buffalo did. When he came across the brass check with the initials C and A on it be nailed it on the spot. The Grand Trunk had to take the trunk baok, and it stood in the storage room at Buffalo did. When he came across the brass check with the initials C and A on it be nailed it on the spot. The Grand Trunk had to take the trunk baot it and much inconvenienced. Mr. Seckilla on the storage room at Buffalo did. When he came across the brass check with the initials C and A on it be nailed it on the spot. The Grand Trunk had to take the trunk baot it and much inconvenienced. Mr. Seckilla of the support of the disapr

Alton baggage. The Alton paid the express this week's shipments are estimated at 2,500 cars. The Frick Company alone shipped 247 cars to-day. 227 of which were produced at their own works. The Frick Company expect to add another works to their rusning list on Mouday.

Forty Pinkerton guards were sent to the Redstone plant near Unioniown to-day, and on Minday a start will be mais. The old men will have the first opportunity for places, but if they do not take them new men will be sent in on Tuesday. The plant has 46 ovens. The Early plant of the same company started on Thursday and now has 38 ovens charged. The rest of the plant will be put in blast next week.

The nineteen diagers who returned to work to-day at the Valley plant made an unusual ton for men who have been idie so long. The company believes they will have thirty ovens fired on Monday. The Union plant of the McClure plant started on Thursday is running rapidly.

They now have twenty-two men working, and twonty-six ovens fired. All the men are formed mineral manning to the first of the plant is now said to be running with 430 men. The 630 ovens are expected to be in full blast.

which they had to buy because they didn't have the trunk. They were at a modest hotel vesteriar, but they will go to the Fifth Avenue Hotel to-morrow.

Mr. Seckel spoke of the affair as "an outrageous trick." He has no doubt that one of the companies will some around and food the bill. The company that was evidently to blame was the West Shore, because it was the only one that held back the baggage. The mistake was in the west Shore conductor's not refusing the steries and telling Seekel that the baggage would be refused. Then Mr. Seckel and he dangater might have reached New York by another road, or paid their fares on the West Shore, catching the steamer. That they were much inconvenienced, through no fault of their own, there is no doubt.

The Alton officials were elated when a SUN reporter informed them of the case, and they that the West Shore and Grand Trunk roads are in a hole, whatever the outcome, They have clearly ignored the boycott, and the West Shore may have to pay something to settle the case. If the Board of Rullings takes no action in the matter it will be a facit admission, the Alton people say, that the boycott is dead.

IS IT A WAR OF FREIGHT RATES

Things Are Going From Bad to Worse Between Chicago and the Scaboard. The east-bound freight situation, according to Chicago despatches, is such that a general break in rates would surprise nobody. While the Western lines are on their good behavior. as a result of the indictments recently found by the Federal Grand Jury against certain of their officers, some of the Eastern roads have apparently grown more reckless than usual, It is not thought that a general reduction can be avoided much longer. The Big Four and the Chesapeake and Obio are said to be making openly a rate five cents less than tariff. The Nickel Plate and Lackswanna lines have been getting the bulk of the east-bound through traffic from Chicago for months, and it is not believed that they could secure and retain such an advantage over the other roads without making concessions to thippers.

The special agent of the later-Blate Commerce Commission is investigating charges of violation of the law by giving special advantage to certain shippers against the Lackswanna and Nickel Flate, and the matter is to be laid before the next Federal Grand Jury. The exceedingly low take rates make it impossible for the railroads to get through business without cutting the rates. It is stated on good authority that a rate is being quoted from Chicago to Liverpool, via both Boston and Philadelphia, on flour and grain, at an equivalent of 25% eents per 100 pounds. The inland rate from Chicago to New York is 25 cents, which would leave only five-eights of a cent for the ocean transportation. This might be accepted by a steamship in need of ballast, but in this case it is believed that the inland rate is cut. ing openly a rate five cents less than tariff.

Saved Two Shipwreeked Sailors in the

BALTIMORE. May 16 .- Capt. Hunt of the tug Kate Jones brought here this morning two colored men whom his crew had rescued late Thursday night from the rigging of a sunker alcop off Newpoint. A storm was raging and it was very dark. They heard a faint cry for help. A small boat was lowered, and the tug's crew felt their way toward the voice, but came near being swamped twice. Their arrival was timely, as both were more dead than alive. They had been in the water seven hours. They belonged to Yorktown, Va.
